

Product Information

PUMY-SP R410A
Inverter Heat Pump (12.5-15.5kW)
Multi-Split Units

Making a
World of
Difference

Multi-Splits

The **PUMY-SP** series allow up to 10 indoor units to be connected to a single outdoor unit, using the standard City Multi branch pipework system or via branch boxes and/or LEV kits to connect M Series or Mr Slim indoor units. This makes it an economic and efficient answer for multi-room applications, whilst also offering space saving benefits.

Key Features

- The condensing unit is extremely slimline which allows easy location and application of the system
- Connect stylish M Series wall mounted and floor mounted indoor units to the system via the LEV kit interface **PAC-LV11M**
- Connect M Series and Mr Slim indoor units via the **PAC-MK-BC** boxes alongside VRF indoor units to the same system

Air Conditioning

Note: *1 Either option is available for power supply from outdoor unit OR from a separate supply.

Note: The indoor unit connected to the PAC-LV11 cannot be grouped with other City Multi indoor units. Group control with other M Series indoor units + PAC-LV11 is possible via ME controller or system controller only. Group control is not possible via an MA controller, IT terminal or wireless remote controller. ME control functions energy management, charge apportioning, interlock and free contact are not available.
